EDUCATION

SIMON FRASER UNIVERSITY
MSc in Computer Science
Sep 2018
Graduating in Dec 2019
Burnaby, BC, Canada

NUST
Bachelor of Software Engineering
Sep 2010 - May 2014
Islamabad, Pakistan

SKILLS

BIG DATA
RStudio • Jupyter • Anaconda
PyTorch • Spark • Hadoop

PROGRAMMING
Ruby • Python • Django
JavaScript • NodeJS

DISTRIBUTED SYSTEMS
Kafka • RabbitMQ • Kubernetes
Celery • Redis • AWS Kinesis
AWS SQS • MySQL • Azkaban
Hue • Mode • Presto
Others:
Git • kafka-python • Sarama

COURSEWORK

GRADUATE
Machine Learning
Statistical Learning and Prediction
Programming for Big Data

UNDERGRADUATE
Operating Systems
Applied Parallel Computing
Network Security
Computer Networks
Database Systems
Computer Graphics

ACTIVITIES

• Guitar player (Played at the Orpheum Theatre in June 2018)
• Trekking and Hiking (Base camp of 9th highest peak)
• Horse riding

EXPERIENCE

SHOPIFY | Data Engineer Intern
May 2019 - Aug 2019 | Toronto, ON, Canada
- Implemented binary parsers with custom codecs to handle data ingestion
- Implemented safeguards for downstream migration for type changes in upstream data sources
- Implemented new Datadog metrics and notifications for improved visibility
- Explored and worked on MySQL load-shedding in extractors
- Learned de-duplication techniques required to prevent duplication of same rows coming from multiple shards
- Learned tools such as Azkaban, Apache Hue, Presto, Hive and Mode

WIIVV WEARABLES | Senior Platform Engineer
Nov 2017 – Aug 2018 | Vancouver, BC, Canada

- Wrote event-driven microservices in NodeJS using RabbitMQ
- Briefly worked with Kubernetes on AWS to improve security and load handling

DUBIZZLE OLX | Software Engineer
Jan 2016 – Nov 2017 | Dubai, UAE
- Architectured and migrated payment web-service to a new payment gateway through an A/B test by leveraging HAProxy sticky sessions
- Worked as a core contributor to break Dubizzle monolith into microservices using SOLID principles
- Selected as OLX Tech Ambassador for MENA region

DUBIZZLE OLX | Junior Software Engineer
June 2014 – Dec 2015 | Dubai, UAE
- Worked on projects covering load balancing, load testing, caching, message bus, canary releases, asynchronous tasks, producers and consumers
